## 2. RATINGS

The Notes to be issued have not been rated.

## 3. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER

Save for fees, if any, payable to the Dealer, and so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer.

Société Générale will ensure the roles of provider of hedging instruments to the Issuer of the Notes and Calculation Agent of the Notes.

The possibility of conflicts of interest between the different roles of Société Générale on one hand, and between those of Société Générale in these roles and those of the Noteholders on the other hand cannot be excluded.

Furthermore, the Notes being indexed on the occurrence or non occurrence of one or more Credit Event(s), Société Générale may, at any time, (i) hold Obligations of the Reference Entity(ies), (ii) be in possession of information in relation to any Reference Entity(ies) that may be material in the context of the issue of the Notes and that may not be publicly available (or known), (iii) participate in any of the ISDA Credit Derivatives Determinations Committee or participate as a dealer in any auction process used to determine the Final Value of any Reference Entity in relation to which a Credit Event has occurred, which may, in each case, be in conflict with the interests of the Noteholders.

Furthermore, given the banking activities of Société Générale, conflicts may arise between the interests of Société Générale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the Notes or possession of non public information in relation with them) and those of the Noteholders. Finally, the activities of Société Générale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Noteholders.

## 4. REASONS FOR THE OFFER AND USE OF PROCEEDS

- (i) **Reasons for the offer and use of proceeds:** The net proceeds from each issue of Notes will be applied for the general financing purposes of the Société Générale Group, which include making a profit.

- (ii) **Estimated net proceeds:** Not Applicable
- (iii) **Estimated total expenses:** Not Applicable

5. **INDICATION OF YIELD** (*Fixed Rate Notes only*)  
Not Applicable

6. **HISTORIC INTEREST RATES** (*Floating Rate Notes only*)  
Not Applicable

7. **PERFORMANCE AND EFFECT ON VALUE OF INVESTMENT**

(i) **PERFORMANCE OF FORMULA, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT**  
(*Structured Notes only*)

The value of the Notes, the payment of a coupon amount on a relevant interest payment date to a Noteholder will depend on the performance of the underlying asset(s), on the relevant valuation date(s).

The value of the Notes is linked to the positive or negative performance of the basket of underlying instruments. The amount(s) to be paid is/are determined on the basis of the condition which is satisfied (or not) if the performance of the basket of underlying instrument(s) is higher than or equal to a predefined barrier performance. Performance of the basket of underlying instrument(s) can be averaged.

The terms and conditions of the Notes may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Notes may be incurred or certain modifications be made. Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Notes allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the maturity date of the Notes, postpone the maturity date of the Notes, early redeem the Notes on the basis of the market value of these Notes, or deduct from any due amount the increased cost of hedging, and in each case without the consent of the Noteholders.

Payments (in respect of interest whether at maturity or otherwise) on the Notes are calculated by reference to certain underlying(s), the return of the Notes is based on changes in the value of the underlying(s), which may fluctuate. Prospective investors should be aware that these Notes may be volatile and that they may receive no interest and may lose all or a substantial portion of their principal.

Payments (in respect of principal whether at maturity or otherwise) on the Notes are linked to the occurrence or non occurrence of one or more credit event(s) relating to one or more reference entity(ies). If the calculation agent determines that one or more credit event(s) has(have) occurred, the obligation of the Issuer to pay the principal on the maturity date will be replaced by (i) an obligation to pay other amounts (either fixed or calculated by reference to the value of the deliverable asset(s) of the relevant reference entity, and in each case, which may be lower than the par value of the Notes on the relevant date), and/or (ii) an obligation to deliver the deliverable asset. Furthermore, credit linked notes paying interest(s) may cease to produce interest(s) at the credit event determination date or earlier.

During the lifetime of the Notes, the market value of these Notes may be lower than the invested capital.

**ISSUE SPECIFIC SUMMARY**

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case, a short description of the Element is included in the summary with the mention of "Not Applicable".

Country of incorporation: France.</p> <p><b>B.19/ B.4b: Known trends affecting the guarantor and the industries in which it operates</b></p> <p>In 2017, the global economy will be marked by slow improvement in OECD economies and the continued transition of the Chinese economic model.</p> <p>The Eurozone struggled to recover sustained economic growth in 2016, thus slowing the reduction of public deficits. The ECB should continue its accommodating monetary policy at least until the end of 2017, thereby maintaining market interest rates at low levels, in an environment where inflation should also remain low (although slightly above the rate observed in the region in 2016). In the United States, the Fed should continue its monetary tightening started in 2015, at a pace that will be dependent on the country's growth momentum, which could be strengthened by the first effects of the expansionary economic policy of the new US administration. Despite these diverging monetary policies, we should observe a slight steepening of the yield curve in both Europe and the United States, with a gradual increase in long-term rates.</p> <p>In emerging countries, growth in 2016 was moderate on the whole, and varied from region to region. This trend should continue in 2017, in particular with the continued shift in the Chinese growth model. However, commodity-producing countries should benefit from a moderate increase in commodity prices. In particular, oil prices should be supported by the production-limiting agreement signed within the OPEC at end-2016.</p> <p>It is also likely that 2017 will be marked by a highly uncertain geopolitical environment, following on from a certain number of events in 2016. Major elections will be held in several key European Union countries (the Netherlands, France and Germany), and the year will also see the kick-off of Brexit negotiations. In addition, several hotbeds of instability or tension (in the Middle East or the China Sea) could adversely affect the global economy, as</p>

could a potential deterioration in relations between certain major world powers (United States, Russia and China).

2017 should also see the stabilisation of the regulatory framework (Basel reforms, IFRS, etc.) and, for most banks, mark the end of the cycle of equity increases that began with the financial crisis. In this context, the challenge facing banks will nonetheless remain the development of a sustainable long-term growth model and the preservation of their capacity to finance the economy. Indeed, the addition of recent regulatory constraints will weigh on the profitability of certain banking activities and thus influence the strategy and development model of certain operators in the sector.

In Europe, due to the various elections to be held this year within the Eurozone, it is likely that 2017 will see little progress towards the third pillar of the Banking Union, regarding the creation of a European deposit guarantee facility. Ultimately, this facility will contribute to the stability and strengthening of the European banking sector, but could entail significant costs for banking players.

Lastly, banks must continue to adapt to a certain number of fundamental shifts, particularly the acceleration of technological changes, requiring them to radically transform their operational and relationship models. Moreover, the Group is working on a medium-term strategic plan, which will be disseminated towards the end of 2017.

D.6	<b>Key information on the key risks that are specific to the securities and risk warning to the effect that investors may lose the value of their entire investment or part of it</b>	<p>The terms and conditions of the Notes may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Notes may be incurred or certain modifications be made. Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Notes allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the maturity date of the Notes, postpone the maturity date of the Notes, early redeem the Notes on the basis of the market value of these Notes or deduct from any due amount the increased cost of hedging, and in each case without the prior consent of the Noteholders.</p> <p>Payments (in respect of interest whether at maturity or otherwise) on the Notes are calculated by reference to certain underlying(s), the return of the Notes is based on changes in the value of the underlying(s), which may fluctuate. Prospective investors should be aware that these Notes may be volatile and that they may receive no interest and may lose all or a substantial portion of their principal.</p> <p>Payments (in respect of principal whether at maturity or otherwise) on the Notes are linked to the occurrence or non occurrence of one or more credit event(s) relating to one or more reference entity(ies). If the calculation agent determines that one or more credit event(s) has(have) occurred, the obligation of the Issuer to pay the principal on the maturity date will be replaced by (i) an obligation to pay other amounts (either fixed or calculated by reference to the value of the deliverable asset(s) of the relevant reference entity, and in each case, which may be lower than the par value of the Notes on the relevant date), and/or (ii) an obligation to deliver the deliverable asset. Furthermore, credit linked notes paying interest(s) may cease to produce interest(s) at the credit event determination date or earlier.</p> <p>The Guarantee constitutes a general and unsecured contractual obligation of the Guarantor and no other person. Any payments on the Notes are also dependent on the creditworthiness of the Guarantor.</p> <p>Prospective investors in Notes benefiting from the Guarantee should note that in case of payment default of an Issuer the entitlement of the Noteholder will be limited to the sums obtained by making a claim under the Guarantee, and the relevant provisions of the Guarantee and they shall have no right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Issuer.</p> <p>The Guarantee is a payment guarantee only and not a guarantee of the</p>

		<p>performance by the relevant Issuer or any of its other obligations under the Notes benefiting from the Guarantee.</p> <p>Société Générale will act as issuer under the Programme, as the Guarantor of the Notes issued by the Issuer and also as provider of hedging instruments to the Issuer. As a result, investors will be exposed not only to the credit risk of the Guarantor but also operational risks arising from the lack of independence of the Guarantor, in assuming its duties and obligations as the Guarantor and provider of the hedging instruments.</p> <p>The potential conflicts of interests and operational risks arising from such lack of independence are in part intended to be mitigated by the fact that different divisions within the Guarantor will be responsible for implementing the Guarantee and providing the hedging instruments and that each division is run as a separate operational unit, segregated by Chinese walls (information barriers) and run by different management teams.</p> <p>The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates, in connection with their other business activities, may possess or acquire material information about the underlying assets. Such activities and information may cause consequences adverse to Noteholders.</p> <p>The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates may act in other capacities with regard to the Notes, such as market maker, calculation agent or agent. Therefore, a potential conflict of interests may arise. In connection with the offering of the Notes, the Issuer and the Guarantor and/or their affiliates may enter into one or more hedging transaction(s) with respect to a reference asset(s) or related derivatives, which may affect the market price, liquidity or value of the Notes.</p> <p>During the lifetime of the Notes, the market value of these Notes may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.</p> <p><b>The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.</b></p>

	<p>Lagstiftning under vilken Emittenten agerar: fransk rätt.</p> <p>Land för bildande: Frankrike.</p> <p><b>B.19/ B.4b: Kända trender som påverkar garanten och den bransch inom vilken den agerar</b></p> <p>Under år 2017 kommer den globala ekonomin att präglas av långsam förbättring inom OECD-ekonomierna och fortsatt omvandling av den kinesiska ekonomiska modellen.</p> <p>Eurozonen kämpade med att återställa uthållig ekonomisk tillväxt under år 2016, vilket bromsade minskningen av offentliga underskott. ECB bör fortsätta dess expansiva monetära policy åtminstone till slutet av år 2017, därigenom hålls marknadsräntorna på låga nivåer, i en miljö där även inflation bör fortsätta att vara låg (om än något över takten som noterades i regionen under år 2016). I USA bör Fed fortsätta dess monetära åtstramning som påbörjades år 2015 i en takt som kommer att bero på landets tillväxttakt, vilken kan komma att stärkas av de första effekterna av den nya expansiva ekonomiska policyn från den amerikanska regeringen. Trots dessa divergerande monetära policier bör vi se en svag ökning av räntekurvan i både Europa och USA, med en gradvis höjning av långa marknadsräntor.</p> <p>I tillväxtländerna var tillväxten under år 2016 i stort sett blygsam och varierade från region till region. Denna trend bör fortsätta under år 2017, särskilt med det fortsatta skiftet i den kinesiska tillväxtmodellen. Men råvaruproducerande länder bör dra fördel av en blygsam ökning av råvarupriser. Särskilt bör oljepriser stödjas av det produktionsbegränsande avtalet undertecknat inom OPEC i slutet av år 2016.</p> <p>Det är också troligt att år 2017 kommer att präglas av en miljö med hög geopolitisk osäkerhet, fortsatt från ett visst antal händelser under år 2016. Större val ska hållas i flera viktiga länder inom den Europeiska Unionen (Nederländerna, Frankrike och Tyskland) och året kommer även att se inledandet av Brexit-förhandlingarna. Vidare kan flera instabilitets- eller spänningshärdar (i Mellanöstern eller Kinesiska Sjön) påverka den globala ekonomin negativt vilket även en potentiell försämring i relationerna mellan vissa större supermakter (USA, Ryssland och Kina) skulle kunna göra.</p> <p>År 2017 bör också se en stabilisering av det regulatoriska ramverket (Basel-reformer, IFRS m.m.) och markerar, för de flesta banker, slutet av perioden med öknings av eget kapital som började med den finansiella krisen. I detta sammanhang kommer utmaningen som bankerna även fortsatt möter, att vara utvecklandet av en långsiktig hållbar tillväxtmodell och bevarandet av dess kapacitet att finansiera ekonomin. Tillkomsten av nya regulatoriska begränsningar kommer att dra ned lönsamheten för vissa bankverksamheter och därmed influera strategin och utvecklingsmodellen för vissa aktörer inom sektorn.</p> <p>I Europa, på grund av de olika valen som ska hållas under detta år inom Eurozonen, är det troligt att år 2017 kommer att se små framsteg avseende den tredje pelaren i Bankunionen, avseende skapandet av en europeisk banksättningskyddsfacilitet. Ytterst kommer denna facilitet att bidra till stabiliteten för och stärkningen av den europeiska banksektorn, men kan medföra betydande kostnader för bankaktörer.</p> <p>Slutligen måste banker fortsätta att genomföra ett visst antal grundläggande skiften, särskilt accelerationen av teknologiska förändringar, som kräver att dessa radikalt omvandlar dessas operationella och relationsmodeller. Vidare, Koncernen arbetar med en medellångsiktig plan, vilken kommer att spridas mot slutet av år 2017.</p>

**Begränsningar av rättigheter förknippade med värdepapperen:**

- Emittenten kan lösa in Obligationerna i förtid på basis av marknadsvärdet för dessa Obligationer på grund av skatte- eller regulatoriska skäl eller om det inträffar extraordinära händelser som påverkar de(t) underliggande instrumentet(en) eller om det inträffar ytterligare störningshändelse(r).

- om Emittenten underlåter att betala ska Obligationsinnehavare inte initiera något förfarande, juridiskt eller annat, eller i övrigt driva ett krav mot Emittenten. Oaktat detta kommer Obligationsinnehavarna att kunna kräva Garanten på varje obetalt belopp.

**Beskattning**

Oaktat det ovanstående, inte i något fall ska Emittenten eller, som fallet kan vara,

<b>D.6</b>	<b>Nyckelinformation om de väsentliga riskerna som är specifika för värdepapperen och riskvarning att investerare kan förlora värdet av deras hela investering eller del av den</b>	<p>Villkoren för Obligationerna kan innehålla bestämmelser enligt vilka inträffandet av vissa marknadsstörande händelser kan föranleda att förseningar i avveckling av Obligationerna uppkommer eller att vissa förändringar görs. Dessutom om händelser som påverkar de(t) underliggande instrumenten(et) inträffar, tillåter villkoren för Obligationerna att Emittenten byter ut de(t) underliggande instrumenten(et) mot nya(tt) underliggande instrument, avslutar exponeringen mot de(t) underliggande instrumenten(et) och tillämpa en referensränta på de likvider som erhålls på detta sätt till förfallodagen för Obligationerna, senarelägga förfallodagen för Obligationerna, lösa in Obligationerna i förtid på basis av marknadsvärdet för dessa Obligationer, eller dra ifrån från varje belopp som ska erläggas den ökade hedgningskostnaden och, i varje fall, utan föregående samtycke från Obligationsinnehavarna.</p> <p>Betalningar (avseende ränta oavsett om vid förfall eller annars) på Obligationerna beräknas genom referens till viss(a) underliggande, avkastningen på Obligationerna baseras på förändringar i värdet på de(t) underliggande, vilket kan fluktuera. Presumptiva investerare bör vara medvetna om att dessa Obligationer kan vara volatila och att de kanske inte erhåller någon ränta och att de kan förlora hela eller en väsentlig andel av deras kapitalbelopp.</p> <p>Betalningar (avseende kapital oavsett om vid förfall eller annars) på Obligationerna är relaterat till om det inträffar eller inte inträffar en eller flera kredithändelse(r) avseende en eller flera referensenheter(er). Om beräkningsagenten fastställer att en eller flera kredithändelse(r) har inträffat, kommer förpliktelsen för Emittenten att betala kapitalbeloppet på förfallodagen att ersättas av (i) en förpliktelse att betala andra belopp (antingen fasta eller beräknade med referens till värdet av de(n) levererbara tillgångarna(en) för den relevanta referensenheten och, i varje fall, vilket kan vara lägre än det nominella beloppet för Obligationerna på den relevanta dagen), och/eller (ii) en förpliktelse att leverera den levererbara tillgången. Vidare kan kreditrelaterade obligationer som betalar ränta(or), sluta att betala ränta(or) vid fastställsedagen för kredithändelser eller tidigare.</p> <p>Garantin utgör en allmän och icke säkerställd kontraktuell förpliktelse för Garanten och inte för någon annan. Varje betalning under Obligationerna är också beroende av Garantens kreditvärdighet.</p> <p>Presumptiva investerare i Obligationerna som gynnas av Garantin bör notera att vid underlåtenhet att erlagga betalning av en Emittent kommer Obligationsinnehavarens berättigande att vara begränsat till de summor som erhålls genom att framställa krav under Garantin i enlighet med dess villkor och de ska inte ha någon rätt att inleda någon process, juridisk eller annan, eller annars genomdriva krav mot Emittenten.</p> <p>Garantin är uteslutande en betalningsgaranti och inte en garanti för utförande av aktuell Emittent eller några av deras andra åligganden i relation till de Obligationer som Garantin gäller till förmån för.</p> <p>Société Générale kommer att agera som emittent under Programmet, som Garant för Obligationerna emitterade av Emittenten och också som leverantör av hedgningsinstrument till Emittenten. Som en följd är investerare inte bara exponerade mot kreditrisken hos Garanten men även mot operationella risker hänförliga till avsaknaden på oberoende för</p>

		<p>Garanten, när denne ikläder sig skyldigheter och förpliktelser som Garant och leverantör av hedgningsinstrument.</p> <p>De potentiella intressekonflikter och operativa risker som kan uppstå på grund av sådan avsaknad av oberoende anses till viss del mildras genom att det är olika divisioner inom Garantens koncern som ansvarar för att implementera Garantin och för att tillhandahålla hedgningsinstrument och genom att varje division drivs som en separat operativ enhet, avskild genom informationsbarriärer (så kallade kinesiska väggar) och ledda av olika ledningsteam.</p> <p>Emittenten och Garanten och varje av dessas dotterföretag och/eller närstående företag kan i samband med andra affärsverksamheter inneha eller förvärva väsentlig information om de underliggande tillgångarna. Sådan verksamhet och information kan få konsekvenser som är negativa för Obligationsinnehavarna.</p> <p>Emittenten och Garanten och varje av dessas dotterföretag och/eller närstående företag kan agera i andra roller avseende Obligationerna, till exempel som market-maker, beräkningsagent eller agent. Följaktligen kan potentiella intressekonflikter uppkomma.</p> <p>I samband med erbjudandet av Obligationerna kan Emittenten och Garanten och/eller dessas närstående företag ingå en eller flera hedgningstransaktioner avseende en referenstillgång(ar) eller relaterade derivat, vilket kan påverka marknadskursen, likviditeten eller värdet för Obligationerna.</p> <p>Under Obligationernas löptid kan marknadsvärdet för dessa Obligationer vara lägre än det investerade kapitalet. Vidare kan en insolvens för Emittenten och Garanten resultera i en total förlust av det investerade kapitalet.</p> <p><b>Investeringarna uppmärksammas på det faktum att de kan drabbas av en fullständig eller partiell förlust av deras investering.</b></p>

		<p>sådan rättighet så har ingen potentiell investerare rätt att teckna för eller i annat fall förvärva Obligationerna.</p> <p>I varje fall kommer ett meddelande till investerare om förtida stängning eller återtagande, så som tillämpligt, att publiceras på Emittentens hemsida (<a href="http://prospectus.socgen.com">http://prospectus.socgen.com</a>).</p>
<b>E.4</b>	<b>Beskrivning av varje intresse som är väsentligt för emissionen/erbjudandet inklusive intressekonflikter</b>	<p>Förutom varje arvode som ska erläggas till Återförsäljaren har, såvitt Emittenten känner till, inte någon person involverad i emissionen av Obligationerna ett intresse som är väsentligt för erbjudandet.</p>

Slutligen kan Société Générales verksamheter avseende de(t) underliggande finansiella instrumentet(en), för egen räkning eller för dess kunders räkning, eller etableringen av hedgningstransaktioner, ha en inverkan på priset för dessa instrument och dessas likviditet och kan således vara i konflikt med intressena hos Obligationsinnehavarna.</p>
